

# McCallum Park Active Area

## Briefing Pack

## Principles to reduce overall project cost

- Prioritise the key Active Area elements that will deliver the maximum community benefits
- Seek alternative design outcomes - event and carpark
- Look to reduce the scale and costs in non-essential areas

## Outcomes of review and final scope as per Grant Funding likelihood

- Reduction and offset retaining to match easement boundaries
- Reduced bespoke raised shading and lighting
- No permanent carpark or café - event space and car parking within adjacent McCallum Precinct
- Reduction in planting and irrigation intensity

CSRFF Project Scope – Council Resolution (181/2023)
