Certified Practising Accountants

19 June 2018

Mr Anthony Vuleta Chief Executive Officer Town of Victoria Park Locked Bag No. 437 VICTORIA PARK WA 6979

Dear Sir

RE: INTERIM AUDIT VISIT FOR THE YEAR ENDING 30 JUNE 2018

We recently carried out an interim audit of the Town of Victoria Park for the year ending 30 June 2018.

Our interim audit covered a review of the accounting and internal control procedures in operation, as well as testing of transactions, in the following areas:

	Bank Reconciliations
	Investment of Surplus Funds
<u> </u>	Purchases
۵	Payments and Creditors
	Rate Receipts and Rate Debtors
<u> </u>	Receipts and Sundry Debtors
<u> </u>	Payroll
	General Accounting (Journals, etc.)
o.	IT Controls
0	Registers (Tenders Register, etc.)

- □ Property, Plant & Equipment, and Infrastructure
- □ Review of Council Minutes

Our review also covered an examination of some compliance matters, which are required under the *Local Government Act 1995* (as amended) and *Financial Management Regulations 1996*.

Please note that our examination of internal controls was carried out for audit purposes designed primarily for the purpose of expressing an opinion on the financial statements of the Town of Victoria Park.

Because of the inherent limitations of any internal control structure, it is possible that fraud, error, or non-compliance with laws and regulations may occur and not be detected. Any projection of the evaluation of control procedures to future periods is subject to the risk that the procedures may become inadequate because of changes in conditions, or that the degree of compliance with them may deteriorate.

It should be appreciated that the matters noted came to our attention during the course of our normal audit examination and as a result do not necessarily include all those matters which a more extensive or special examination might identify.

Accordingly, our comments in this management letter are not intended to cover all aspects of the Council's internal controls and accounting systems and are limited to those matters that arose from our normal audit procedures.

The matters noted and brought to your attention are detailed within **Annexure A.**

We thank your staff for the assistance provided during the audit. Should you have any queries with respect to the above or any other matters please do not hesitate to contact our office.

Yours faithfully

ANTHONY MACRI AUDIT PARTNER

SUMMARY OF FINDINGS

	INDEX OF FINDINGS	RATING				
		Significant	Moderate	Minor		
Purchases, Payments and Creditors						
1.	Review of the outstanding purchase order file revealed that some purchase orders were outstanding since July 2016.		*			
2.	Instances noted where purchase orders were raised only after the purchase of goods and services.		✓			
Pa	yroll					
3.	Excessive annual leave balances		✓			
IT	Controls		176 - 16			
4.	Passwords have not been changed for over 12 months.	✓				
5.	No formal process in place to review user access rights.	✓				

KEY TO RATINGS

The Ratings in this management letter are based on the audit team's assessment of risks and concerns with respect to the probability and/or consequence of adverse outcomes if action is not taken. We give consideration to these potential adverse outcomes in the context of both quantitative impact (for example financial loss) and qualitative impact (for example inefficiency, non-compliance, poor service to the public or loss of public confidence).

Significant

Those findings where there is potentially a significant risk to the entity should the finding not be addressed by the entity promptly. A significant rating could indicate the need for a modified audit opinion in the current year, or in a subsequent reporting period if not addressed. However, even if the issue is not likely to impact the audit opinion, it should be addressed promptly.

Moderate

 Those findings which are of sufficient concern to warrant action being taken by the entity as soon as practicable.

Minor

- Those findings that are not of primary concern but still warrant action being taken.

PURCHASES, PAYMENTS AND CREDITORS

1. Matter

Our review of the outstanding purchase orders listing as at 31 March 2018 revealed that 17 purchase orders were outstanding since July 2016. Our checks revealed that some of these outstanding purchase orders were completed and require cancellation.

Rating: Moderate

Implication:

Such practice may increase the risk of unauthorised purchases being made.

Recommendation:

We request that management review the long outstanding purchase orders and purge unwanted and fulfilled purchase orders from the system. This will ensure that only valid outstanding purchase orders remain in the system.

Management Comment:

Management notes the observations as stated.

An open purchase order review is conducted by the Financial Services section on a monthly basis.

The outstanding purchase orders that were identified at the Interim Audit predominantly relate to standing orders, which are not currently included in the monthly review. Standing orders are generally raised at the commencement of the financial year to accommodate annual items such as cleaning services, tree management services, power, water, gas etc. or where an ongoing and continuing obligation exits (which may occur over multiple years).

Management will review the process in consideration of the recommendation from the auditor.

Responsible Person: Financial Controller

Completion Date: September 2018

2. Matter

During our interim audit, we noted two (2) instances (22 samples tested) where purchase orders had been raised only after the goods and services have been supplied. These instances related to:

- Ticket machine upgrade for Tap & Go Purchase Order No. 2028021
- Security system upgrade Purchase Order No. 2028311

Rating: Moderate

Implication:

Such practice may increase the risk of unauthorised purchases being made.

Recommendation:

We request that purchase orders be raised when the goods and services are ordered and not after the goods and services have been received. This will ensure that goods and services have been obtained at the most competitive prices and ensure adherence to Council's purchasing policy.

Management Comment:

Management notes the observations as stated.

In general, purchase orders are raised when the goods and services are ordered and not after receipt. Management will review the appropriateness of employee training on procurement processes so as to minimise such instances in the future. It is unlikely that this issue will ever be fully removed from the organisation and so a risk reduction, rather than risk removal approach will be taken.

Responsible Person: Financial Controller

Completion Date: September 2018

PAYROLL

3. Matter

The Town's "Human Resources Procedure – HRP038 Annual Leave" and Enterprise Agreement 2016 stipulates that employees may accrue a maximum of 10 weeks (380 hours) of annual leave at any time. During our review of the employee annual leave entitlement balances as at 10 May 2018, we noted that 27 employees with accrued annual leave in excess of 380 hours to a maximum of 837 hours (approximately 22 weeks).

This matter was raised in our previous interim audit management letter dated 9 August 2017. The management response then provided was as follows:

"Management confirms that leave reduction agreements are currently in place for most of the staff who have excess leave. Excess leave is monitored regularly by management in order to ensure agreements are in place to reduce any excess leave balance."

Rating: Moderate

Implication:

Excess annual leave entitlements may have adverse effects on the Town including:

- key staff not being rotated, a preventive control against fraud;
- health and safety concerns with staff members not taking their annual entitlements; and
- increase the Town's costs given salary rises and increments over time.

Recommendation:

We recommend that appropriates steps be taken by the management to manage and minimize the excessive annual leave balances in order to avoid the effects mentioned under implication.

Management Comment:

Management notes the observations as stated.

There are currently a number of instances where Leave Reduction Plans are being implemented.

Regular reporting and management review is currently occurring and, over time, this matter will be extinguished.

Responsible Person: Manager Human Resources and Organisational Development Completion Date: Ongoing

TOWN OF VICTORIA PARK

PERIOD OF AUDIT: YEAR ENDING 30 JUNE 2018

MATTERS IDENTIFIED DURING THE INTERIM AUDIT

INFORMATION TECHNOLOGY

We discussed with the Information Services Officer about the general information technology controls operating at the Council. Generally, the controls appear to be operating satisfactorily.

However, the following matters were noted and are brought to your attention:

4. Matter

During our review of the IT general and application controls, we noted that passwords are not changed with sufficient regularity to maintain a secure system.

Rating: Significant

Implication:

Lack of such controls can lead to unauthorised access to the Town's accounting system.

Recommendation:

We recommend that the passwords be changed at periodic intervals to prevent the possibility of unauthorised access. Further consideration be given to password controls such as complexity, length, history, expiry and lock out as complex passwords provide a stronger control over access to the Town's systems, applications and data.

This matter was raised in our previous interim audit management letters dated 26 August 2016 and 9 August 2017. The management response then provided was as follows:

"Management confirms that controls to change computer/system passwords regularly have been reviewed and the Town is currently in the process of implementing this change."

Management Comment:

Management notes the observations as stated.

Changes have now been implemented that meet Australian Signals Directorate and the Australian Cyber Security Centre guidelines and standards.

Responsible Person: Principal ICT Specialist

Completion Date: Complete

5. Matter

During our review, we noted that there is no formal process to review user access rights.

Rating: Significant

Implication:

The lack of control over user access rights could result in significant issues in data integrity of the system.

Recommendation:

We recommend that a formal process be put in place to review user access rights periodically. The user access rights to employees should be granted considering the job description.

Management Comment:

Management notes the observation as stated.

The process to fully resolve the matter identified by the auditor is currently scheduled for completion in the 2019-2020 financial year, which is following a significant programmed upgrade to the organisational core systems. Given the rating (of significant) of the matter noted by the auditor, management will seek to complete a review of user access rights in the 2018-2019 financial year.

Responsible Person: Principal ICT Specialist

Completion Date: September 2018 (interim issue resolution)

8.4 Review of wards and representation 2018

7. Pu	blic submission	14

1. Background

The Town of Victoria Park has resolved to undertake a review of its ward system to comply with the requirements of the *Local Government Act 1995* (the Act).

Schedule 2.2 of the Act requires local governments with wards to carry out reviews of the ward boundaries and the number of councillors for each ward from time to time so that no more than eight years elapse between successive reviews.

This will be the third review undertaken since the Town was formed on 1 July 1994 following the decision of the State Government to split the City of Perth. The first review was completed on 26 February 2002 with no changes being made. The second review was completed on 25 May 2010 which resulted in a change to the boundary from Albany Highway to Shepperton Road between the two wards. In addition the ward names were changed from Carlisle to Banksia and from Victoria Park to Jarrah respectively.

2. Current situation

Currently the Town of Victoria Park has eight (8) councillors elected from two (2) wards as follows:

Table 1 - Current Councillor (Cr)/Elector Ratios

Ward	Number of Electors	Number of Crs	Cr: Elector Ratio	% Ratio Deviation
Banksia	10,154 *	4	1:2539	5.88%
Jarrah	11,423 *	4	1:2856	-5.88%
Total	21,577	8	1:2697	

The percentage deviation gives a clear indication of the percentage difference between the average councillor/elector ratios for each ward.

^{*} Source: Western Australian Electoral Commission - October 2017.

It can be seen that there is a slight imbalance in representation between the two Wards with Banksia being slightly over represented and Jarrah being slightly under represented having 1,269 more electors than Banksia.

Notwithstanding the above, a balanced representation is considered appropriate where the percentage ratio deviation falls within plus or minus 10%. The percentage ratio deviation is currently 5.88% which is currently accepted as being balanced.

The following map (Diagram 1) shows the current ward boundaries, the railway and major roads within the Town:

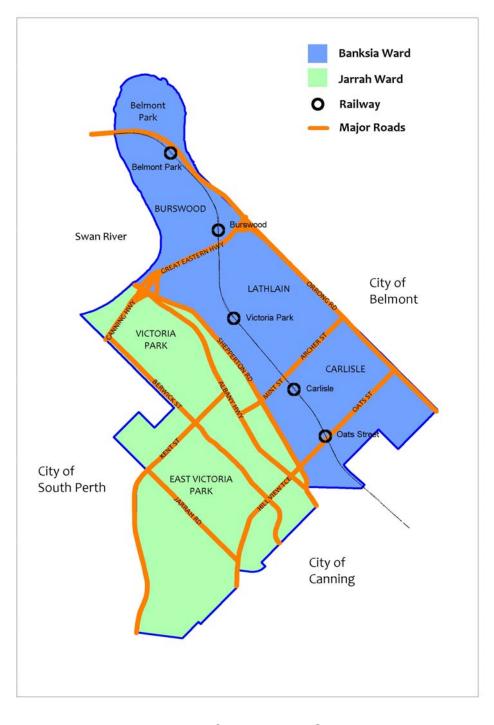

Diagram 1 – Current Ward Structure

3. Review process

The review process involves a number of steps:

- 1. Council resolves to undertake the review;
- 2. Public submission period opens;
- 3. Information provided to the community for discussion;
- 4. Public submission period closes;
- 5. The Council considers all submissions and relevant factors and makes a decision;
- 6. The Council submits a report to the Local Government Advisory Board (the Board) for its consideration; and
- 7. If a change is proposed, the Board submits a recommendation to the Minister for Local Government; Heritage; Culture and the Arts (the Minister).

Any changes approved by the Minister will be in place where possible for the next ordinary election.

4. Factors to be considered

When considering changes to wards and representation, Schedule 2.2 of the Act specifies factors that must be taken into account by a local government as part of the review process:

- 1. Community of interest;
- 2. Physical and topographic features;
- 3. Demographic trends;
- 4. Economic factors; and
- 5. Ratio of councillors to electors in the various wards.

The Board offers the following interpretation of these factors:

4.1 Community of interest

The term community of interest has a number of elements. These include a sense of community identity and belonging, similarities in the characteristics of the residents of a community and similarities in the economic activities. It can also include dependence on shared facilities in an area as reflected in catchment areas of local schools and sporting teams, or the circulation areas of local newspapers.

Neighbourhoods, suburbs and towns are important units in the physical, historical and social infrastructure and often generate a feeling of community and belonging.

4.2 Physical and topographical features

These may be natural or human made features that will vary from area to area. Water features such as rivers and catchment boundaries may be relevant considerations. Coastal plain and foothills regions, parks and reserves may be relevant as may other human made features such as railway lines and freeways.

4.3 Demographic trends

Several measurements of the characteristics of human population, such as population size, and its distribution by age, sex, occupation and location provide important demographic information. Current and projected population characteristics will be relevant as well as similarities and differences between areas within the local government.

4.4 Economic factors

Economic factors can be broadly interpreted to include any factor that reflects the character of economic activities and resources in the area. This may include the industries that occur in a local government area (or the release of land for these) and the distribution of community assets and infrastructure such as road networks.

4.5 Ratio of Councillors to Electors in the various wards

It is expected that each local government will have similar ratios of electors to councillors across the wards of its district.

5. Options to consider

The Council will consider the following options and members of the community may suggest others:

5.1 Option 1 Maintain the current two (2) ward system.

This option maintains the existing ward boundaries as shown in Diagram 1. If this option is preferred it may be necessary to undertake a further review in five to six years given the proposed residential developments to be undertaken in the Banksia Ward (mentioned in Option 2) which may create an imbalance in representation between the two Wards.

Whilst there is currently a slight imbalance in representation between the two Wards with Banksia (+5.88%) being slightly over represented and Jarrah (-5.88%) being slightly under represented as shown in Table 1, this may alter over the next five to six years due to the proposed redevelopment of the Belmont Park Racecourse.

The current councillor/elector percentage ratio deviation of 5.88% between the two Wards is acceptable.

5.2 Option 2A Change the two (2) ward boundary

With an increase in residential development at Belmont Park Racecourse, Burswood Station Area and the Causeway Precinct it is envisaged that the disparity of electors between the Wards may alter prior to the next review being due in eight years' time.

This could present an argument to amend Ward boundaries by using other roads and streets as the border between the current two Wards.

There are approximately 600 dwellings in that area east of Oats Street bounded by Shepperton Road, Oats Street and Orrong Road.

Applying an occupancy rate of 2.0 persons per dwelling and that an estimated 60% of the Town's population are electors would result in approximately 720 electors that could be transferred from the Banksia Ward to the Jarrah Ward.

The following map (Diagram 2) for Option 2A shows a new boundary whereby the section east of Oats Street is transferred from Banksia Ward to Jarrah Ward.

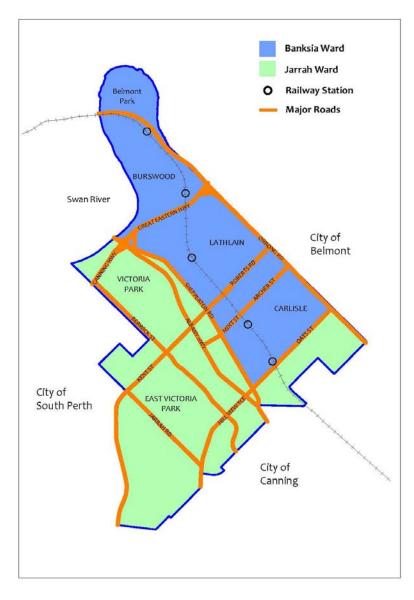

Diagram 2 – Increase in Jarrah Ward District

The following table shows an estimation of electors in the two Wards taking cognisance of the proposed boundary change.

Table 2 – Option 2A 2018 Boundary Change - Projected Councillor/Elector Ratios

Ward	Number of Electors	Number of Councillors	Councillor:Elector Ratio	% Ratio Deviation
Banksia	9,434	4	1:2359	12.5%
Jarrah	12,143	4	1:3036	-12.5%
Total	21,577	8	1:2697	

It can be seen that this would result in an unacceptable imbalance in representation between the two Wards with Jarrah being now under represented as the percentage ratio deviation is -12.5% and Banksia being over represented.

The acceptable balance within the allowable percentage ratio deviation is plus or minus 10%.

Notwithstanding the above, the imbalance between the two Wards may be reduced in future years given the proposed increase in residential development at the Belmont Park Racecourse, Burswood Station Area and the Causeway Precinct.

5.3 Option 2B Change the two (2) ward boundary

As in Option 2A with an increase in residential development at Belmont Park Racecourse, Burswood Station Area and the Causeway Precinct it is envisaged that the disparity of electors between the Wards may alter during the next eight years.

This could present an argument to amend Ward boundaries by using other roads and streets as the border between the current two Wards.

By using the suburb boundary between Carlisle and Lathlain of Roberts Road and the boundary between Victoria Park and East Victoria Park of Kent Street and Miller Street a proposed South Ward could be established. The remaining suburbs of Lathlain, Burswood and Victoria Park could then form a North Ward.

The following map (Diagram 3) for Option 2B shows the two Wards that could be established.

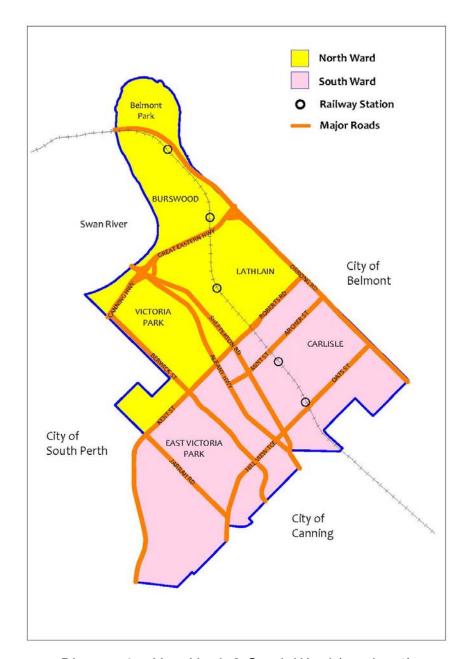

Diagram 3 – New North & South Ward (version 1)

The following table shows the estimated number of electors in the two wards:

Table 3 – Option 2 B 2018 Boundary Change - Projected Councillor/Elector Ratios

Ward	Number of Electors	Number of Councillors	Councillor:Elector Ratio	% Ratio Deviation
North	9,115	4	1:2279	15.5%
South	12,462	4	1:3116	-15.5%
Total	21,577	8	1:2697	

It can be seen that this would result in an unacceptable imbalance in representation between the two Wards with proposed South Ward being under represented with 3,347 more electors than and the proposed North Ward which would be over represented.

The acceptable balance within the allowable percentage ratio deviation is plus or minus 10%.

Notwithstanding the above, the imbalance between the two Wards may be reduced in future years given the proposed increase in residential development at the Belmont Park Racecourse, Burswood Station Area and the Causeway Precinct.

5.4 Option 2C Change the two (2) ward boundary

As in Option 2A with an increase in residential development at Belmont Park Racecourse, Burswood Station Area and the Causeway Precinct it is envisaged that the disparity of electors between the Wards may alter during the next eight years.

This could present an argument to amend Ward boundaries by using other roads and streets as the border between the current two Wards.

Option 2C is based on the North and South Ward scenario as shown in Option 2B. However that section bounded by Shepperton Road, Miller Street, Roberts Roads, Orrong Road, Archer Street and Mint Street is transferred to the proposed North Ward.

There are approximately 690 dwellings in the abovemention area and applying an occupancy rate of 2.0 persons per dwelling and that an estimated 60% of the Town's population are electors would result in approximately 830 electors that could be transferred from the proposed South Ward to the proposed North Ward. to the Jarrah Ward.

The following map (Diagram 4) for Option 2C shows the two wards that could be established.

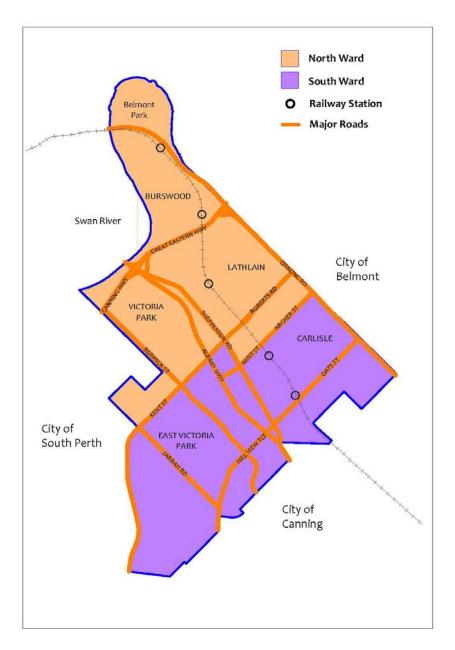

Diagram 4 – New North & South Ward (version 2)

The following table shows the estimated number of electors in the two Wards:

Table 4 – Option 2C 2018 Boundary Change - Projected Councillor/Elector Ratios

Ward	Number of Electors	Number of Councillors	Councillor:Elector Ratio	% Ratio Deviation
North	9,805	4	1:2451	9.1%
South	11,772	4	1:2943	-9.1%
Total	21,577	8	1:2697	

It can be seen that this would result in an acceptable balance in representation between the two Wards as it is within the allowable percentage ratio deviation is plus or minus 10%.

Whilst the proposed North Ward has 1,967 less electors than the proposed South Ward, the imbalance may be reduced in future years given the proposed increase in residential development at the Belmont Park Racecourse, Burswood Station Area and the Causeway Precinct.

5.5 Option 3 No wards.

The following table shows the estimated number of electors for 2028 in the two Wards as they currently exist.

Table 5 – 2028 Projected Councillor/Elector Ratios

Ward	Number of Electors	Number of Councillors	Councillor:Elector Ratio	% Ratio Deviation
Banksia	13,307	4	1:3327	6.83%
Jarrah	15,257	4	1:3814	-6.83%
Total	28,564	8	1:3571	

The percentage deviation shows the percentage difference between the average councillor/elector ratios for each ward.

It can be seen that there will no significant imbalance in representation between the two Wards with Banksia being over represented and Jarrah being under represented. The percentage ratio deviation remains within the acceptable percentage ratio deviation of plus or minus 10%.

Based upon the estimated representation between the two Wards as shown in 2028 projections where the percentage ratio deviation lies between plus 6.83% and minus 6.83% presents an argument for maintaining the current Ward structure. These estimates are based on the 2016 Census and do not take into consideration the proposed developments at the Belmont Park Racecourse, Burswood Station Area and the Causeway Precinct.

If a "No Ward" structure is implemented it would resolve any future imbalances as all 8 Councillors would represent all the electors within the Town's district boundaries which would negate the requirement to review Ward boundaries every 8 years.

In larger metropolitan local governments such as the Cities of Stirling, Wanneroo and Joondalup the ward structure has advantages whereby councillors are elected to actively represent a particular ward. In the City of Wanneroo for example, this negates the councillors representing the suburb of Marangaroo having to travel the distance to Yanchep in order to undertake a site inspection and or meet with constituents as the councillors representing the suburb of Yanchep would be expected to undertake this task.

In the review of the *Local Government Act 1995* the Minister for Local Government; Heritage; Culture and the Arts (the Minister) has indicated that he would be considering implementing a no ward structure for small to medium sized metropolitan local governments to reduce the requirement for

reviews of wards and representation. This would reduce the workload on the Minister, State and Local Government Officers and also the Local Government Advisory Board.

The Town whilst having two wards does not identify a particular Ward when considering matters being presented to Council. Currently all Elected Members are representative of the whole district and the implementation of a "No Ward" structure has merit.

In large local governments such as the City of Stirling, its Doubleview Ward comprises 22,686 electors and is represented by two (2) councillors. A ward structure is therefore considered relevant given the size of the City of Stirling's local government district and its number of electors totalling 142,565.

There may savings in election costs by implementing the "No ward" option because when one elected members office becomes vacant there is no need to conduct an extraordinary election if approved by the Council with the concurrence of the Western Australian Electoral Commissioner.

5.6 Option 4 Changing the ward names.

For example, if the current structure is retained the ward names could be based on geographical locations such as North and South or it may be preferable to use the names of pioneering families in the district or revert back to the former names of Carlisle Ward (now Banksia) and Victoria Park Ward (now Jarrah).

6. Representation

Also under consideration is the number of councillors for each ward and the district. For example, it may be that more councillors will provide better representation and more effective decision-making, but it will result in an increase in costs and therefore be less efficient financially.

In 2009 the then Minister for Local Government, Heritage, Citizenship and Multicultural interests announced strategies for local government reform based on a voluntary reduction in the present number of individual local governments, as well as a reduction in the number of elected members per council to between 6 and 9.

As mentioned under Option 3 (No wards), the City of Stirling's Doubleview Ward comprises 22,686 electors and is represented by two (2) councillors. This equates to a Councillor Elector Ratio of 1:11,343 as compared with the Town's Banksia Ward of 1:2539 and the Jarrah Ward of 1:2586. Whilst this may present an argument that the Town's Wards are over represented, by comparison, the Councillor Elector Ratio in the Town of Claremont's West Ward which is represented by three (3) councillors is 1:750.

If the number of councillors is reduced from eight (8) to six (6) with three (3) representing each the current two (2) Wards the Councillor Elector Ratio is 1:3,385 for the Banksia Ward and 1:3,808 for the Jarrah Ward which is considered reasonable in comparison to the City of Stirling Doubleview Ward and the Town of Claremont West Ward.

Table 6 - Current Councillor (Cr)/Elector Ratios

Ward	Number of Electors	Number of Crs	Cr: Elector Ratio	% Ratio Deviation
Banksia	10,154 *	3	1:3385	5.88%
Jarrah	11,423 *	3	1:3808	-5.88%
Total	21,577	6	1:3596	

^{*} Source: Western Australian Electoral Commission - October 2017.

Consideration could therefore be given to reduce the number of councillors from eight (8) to six (6) with three (3) representing each of a two (2) ward structure or the whole district if wards are abolished.

7. Public submission

Members of the community are invited to make a written submission about any aspect of ward boundaries and representation and lodge it by either:

Delivering it to:

Town of Victoria Park Administration Building 99 Shepperton Road VICTORIA PARK WA

OR

Posting it to:

Town of Victoria Park Locked Bag 437 VICTORIA PARK WA 6979

OR

Email it to:

admin@vicpark.wa.gov.au

All submissions must be received by 5pm on xxxxxxxxx 2018

Thank you for your interest and involvement in this review. Council welcomes your comments on any matters that may assist it to make informed and responsible decisions for the benefit of the people of the Town of Victoria Park
