Hello, I am a Bobtail Lizard. You might know me as a Shingleback or as *Tiliqua rugosa*. When I feel threatened, I turn towards the threat, open my mouth wide and stick out my broad blue tongue that contrasts vividly with my pink mouth.

Hello, I am the Dugite!  
You might know me as *Pseudonaja affinis*. Although naturally shy, I am easily agitated when confronted and will raise my forebody upright in a tight S-shape. I am highly venomous to humans, but remember - I am very likely to be more afraid of you than you are of me!
